# FISKARS QUALITY SINCE 1649

**Pick up a Fiskars product and sense its ergonomic design and innovative functionality. Quality dictates everything Fiskars does, a standard enshrined in the company's core values since its inception in 1649.**

In that year, Peter Thorwöste was granted permission to manufacture cast iron and forged products in a small Finnish village called Fiskars. Today as one of the Western world's oldest companies, Fiskars has grown into a multinational corporation, present in more than 40 countries on four continents and is the number one in hand operated garden tools in North America, Australia and much of Europe.

It's true that the company has come a long way but Fiskars' roots and soul continue onwards in Fiskars

village, where, some 10 kilometers away many of our garden tools are still manufactured to this day, continuing the same stringent quality standards.

Fiskars ergonomic, lightweight, yet powerful garden tools are designed to reduce strain and fatigue, and to ensure gardening is a pleasure, which is what gardening should be about. We're confident that our customers recognize this and continue to support our aspirations for enduring quality.

## Our Quality Pledge

When properly used and maintained, Fiskars garden tools shall remain free of defects in material and workmanship. Any exception to the rule will simply be repaired, replaced or substituted by a product of equal value. Replacement tools or spare parts are offered when returning the tool to the retailer, or contacting the local customer service department.

# NEW PRODUCTS

## NEW INNOVATIONS

### FISKARS SINGLESTEP™

The new additions to the SingleStep™ range of cutting tools offers a great selection for anybody starting out in the garden.

SingleStep™ Lopper Bypass Hook head (S) L28 112160 p. 57

SingleStep™ Lopper Bypass Hook Head (L) L38 112460 p. 57

SingleStep™ Lopper Anvil Hook Head (L) L39 112450 p. 57

SingleStep™ Hedge Shear Wavy Blade HS22 114730 p. 64

### FISKARS SMARTFIT™

This new SmartFit™ pruner is a neat fit in the hand and can be used for varied cutting tasks.

SmartFit™ Pruner Bypass P68 111610 p. 39  
This multi-purpose pruner with adjustable cutting aperture is the perfect pruner for convenient and ergonomic cutting.

### FISKARS QUIKFIT™

Excellent extensions to the versatile QuikFit™ range of interchangeable heads and shafts. Enables gardeners to swiftly change between activities in the garden and yard.

QuikFit™ Flower Rake 135552 p. 83  
A neat and handy addition to the QuikFit range for detail work in garden beds.

QuikFit™ Gutter Cleaner 135542 p. 84  
Introducing a great handy device for all blocked and dirty gutters

QuikFit™ Yard Broom 135532 p. 84  
An excellent all round broom head for the yard or garden.

QuikFit™ Patio Broom 135533 p. 84  
A purpose-made broom head for a clean sweep on all patios and smooth surfaces in the garden.

QuikFit™ Sweeping Broom 135534 p. 85  
A modern revision of the traditional sweeping broom.

QuikFit™ Tree Cutter 136525 p. 85  
The new QuikFit™ tree cutter can be used in combination with any QuikFit™ telescopic shaft for a new dimension in tree pruning.

**FISKARS QUANTUM™**

Introducing an innovative premium quality range of cutting tools for demanding gardeners.

Quantum™ Pruner Bypass P100 111970 **p. 37**

Quantum™ Lopper Bypass Scissor Head (S) L102 112240 **p. 51**

Quantum™ Lopper Bypass (M) L104 112330 **p. 51**  
Quantum™ Lopper Bypass (L) L108 112630 **p. 51**

Quantum™ Lopper Anvil (L) L109 112610 **p. 51**

Quantum™ Hedge Shear HS102 114820 **p. 63**

**MY FIRST FISKARS®**

Introducing a solid selection of newly revised working tools for small hands and big minds.

My First Fiskars® Shovel 138180 **p. 89**

My First Fiskars® Spade 138170 **p. 89**

My First Fiskars® Rake 138160 **p. 89**

My First Fiskars® Broom 138150 **p. 89**

**My First Fiskars® Box Set 138190 p. 89**  
The new box set offers an innovative selection of tools for young children to get out and explore their world.

# PICTOGRAMS

## Level of enhancement

## Fiskars USPs

**EaseCut™**  
Indicates by how many times the cutting power is multiplied.

**FiberComp™**  
Strong, durable and lightweight properties.

**SoftGrip™**  
Comfortable anti-shock handle.

**PowerClean™**  
Combination of soft and hard bristles.

**TruEdge™**  
Mechanically strong, sharp, corrosion-resistant an non-stick blade coating.

**TruGrip™**  
Comfortable organic handle.

**Cutting capacity**  
Shows the maximum cutting diameter.

**Micro tip**  
Thin and sharp blades for precision cutting.

**Safety**  
Loop helps to shield fingers when cutting.

**Female**  
For female use.

**Power tip**  
Cutting power is distributed evenly.

**Shock-proofed**  
Improves comfort by absorbing vibrations.

**Fingerloop handle**  
Prevents slipping and protects fingers.

**Male**  
For male use.

**Telescopic**  
The length of the product can be adjusted.

**Push and pull blade**  
For faster, more efficient cutting.

**Pull blade**  
Optimised for pruning green wood.

**Hand size**  
Suitable for small hands.

**Strength**  
Withstands hard wear and loads.

**Tightly sealed**  
Shaft and blade are fused together for a tight seal.

**Weather proof**  
Withstands all types of weather.

**Ambidextrous**  
For both right-handed and left-handed use.

**Pocket-sized**  
Fits easily into a pocket.

**Belt holder**  
Optimised feature for convenient portability.

**Center of gravity**  
Perfectly balanced.

**Right-handed product**  
For right-handed use.

## Product Materials

**Aluminium**  
Lightweight, strong properties.

**CrMov**  
Highly durable material which holds an edge.

**PBT**  
Lightweight, flexible and durable.

**Boron steel**  
Sharp and durable.

**Stainless steel**  
Mechanically strong and corrosion-resistant.

**PTFE coating**  
Corrosion-resistant, non-stick blade coating.

**Steel gear mechanism**  
Strong and effective steel mechanism.

**Genuine leather**  
Made of tough, genuine leather.

Usage

**For fresh wood**  
Bypass cutting action.

**For dry wood**  
Anvil cutting action.

**For universal cutting**  
For cutting thin steel plates, plastic, tube, rope, etc.

**Hook head**  
For heavy cutting of green wood.

**Scissor head**  
For precision cutting of green wood.

**Fine toothing**  
For efficient sawing of planks and boards.

**Efficient toothing**  
For sawing green wood.

**Splitting axe**  
For easier, faster splitting of wood.

**Chopping axe**  
For easy cutting through fresh wood.

**Brush hook**  
For trimming undergrowth and even clearing small trees.

**Snow tool**  
For clearing snow in small or large areas.

**Fruit picking**  
For harvesting fruit trees.

**Yard cleaning**  
For clearing debris from yard areas.

**Patio cleaning**  
Optimised for clearing finer-particle debris.

**Gutter cleaning**  
For easy reach and clearing of gutter debris.

**Flower stems**  
For cutting flower stems.

**Hedges and bushes**  
For cutting hedges and bushes.

**Grass**  
For cutting grass.

**Potted plants**  
For cutting potted plants.

**Bonsai plants**  
For cutting bonsai plants.

**Herbs**  
For cutting of delicate herbs.

**Sharpening wooden canes**

**Carving**  
For stripping bark.

**Pruning/Grafting**  
For cutting of small side shoots, laterals and pruning of weak growth.

**Grafting**  
For various grafting tasks.

**Whittling**  
For whittling wood.

**Cotton & string**  
For cutting cotton and string.

**Building site**  
For cutting rockwool and fiberboard.

**Vegetables**  
For cutting and processing vegetables and mushrooms.

**Fish**  
For preparing fish.

**Soil care**  
For all soil-related tasks.

**Lawn care**

**Paving**

**Leaf collecting**

**Digging**  
Preparing planting holes and removing sod or soil.

**Garden digging**  
Slicing and cutting grass tufts and moving and mixing soil.

**Construction digging**  
Heavy-duty digging.

**Sandmoving**

**Composting**

**Haying**

**Axe sharpening**  
For maintaining optimal sharpness of Fiskars axes.

**Knife sharpening**  
For optimal sharpening of Fiskars knives.

Usage and maintenance

**Spare parts**  
Spare parts are available.

**Plus parts**  
Can be complemented with additional parts.

# AXES

Fiskars next generation axes are a true evolution of craftsmanship covering the full range of functionality from splitting to chopping, woodcraft to carpentry and pruning. The range delivers a wonderful package of minimalist design and sharp-edged functionality with the right size fit for every hand and task.

# SPADES

Fiskars wanted to take the hard work out of digging so we've designed a range of ergonomic spades with features such as angled heads and telescopic handles that make lighter work of moving earth. Durable hardened boron steel blades are folded at the top to create a stepping surface for additional leverage. Good design, great materials and ergonomic grip make spade work a breeze.

# Telescopic

<b>Telescopic Garden Spade Pointed</b>	Article No <b>131300</b>	<b>Product benefits</b>
		<ul style="list-style-type: none"> <li>&lt; Pointed and sharpened cutting edge to aerate, stir and turn soil and cut through roots</li> <li>&lt; Especially good for digging in stony, clay and hard soils</li> <li>&lt; Large D-shaped handle fits all hand sizes, with or without gloves</li> <li>&lt; Adjustable shaft length from 1050mm to 1250mm means the spade can be comfortably used at range of heights</li> <li>&lt; The welded connection between the blade and the shaft ensures rigid durability and longevity</li> <li>&lt; Boron steel construction adds extra strength and makes penetration into the soil easier</li> <li>&lt; Lifting angle of 13°</li> <li>&lt; Retail box: 4</li> <li>&lt; Length: 1050 - 1250mm</li> <li>&lt; Weight: 1900g</li> </ul> <div style="display: flex; justify-content: space-between; align-items: flex-end;">    </div> <p style="text-align: right; margin-right: 20px;">6 4 11503 252553</p>

 Length: 75mm  
 Weight: 320g

**134737**  
**QuikDrill™ PlusPart L:**  
 Working diameter 200mm  
 Retail box: 2  
 Length: 100mm  
 Weight: 580g

- < Switch easily between different garden tasks thanks to Fiskars QuikDrill Plus Parts
- < The blades come in 3 sizes and can be combined with any Fiskars QuikDrill shaft
- < The interchangeable blades extend the usage of the original Fiskars QuikDrill to versatile garden tasks from perennial planting to aerating soil

# NURSERY TOOLS

Fiskars nursery tools are ergonomically designed for comfortable planting, cultivating, weeding and seeding. They are designed with rounded edges to minimise soil and root damage.

# PRUNERS

Fiskars pruners are ergonomically designed for comfort and ease of use and are recognised as best in category by many gardeners and industry experts for value and performance. Their ergonomic handles are made of extra durable synthetic materials and the stainless steel blades are secured by an easily accessible locking mechanism when the pruner is not in use.

Blade, bolt, sheet, nut, screw and spring for pruner 111960

# Maintenance

Maintenance Kit	Article No 110990	Product benefits
		<ul style="list-style-type: none"> <li>&lt; Includes a maintenance guide book, diamond file and oil</li> <li>&lt; Instructions on sharpening, oiling, washing, storage etc is detailed in pictures and symbols</li> <li>&lt; Retail box:4</li> <li>&lt; Length:104 mm</li> <li>&lt; Weight:135g</li> </ul> <div style="text-align: right;">  <p>6 4 11501 969903</p> </div>

Well cared for garden tools perform better and last longer. A tool can be made as good as new and ready for use again in just a few minutes. Fiskars Care Kit contains all the necessary equipment and instructions needed for maintenance of your gardening tools:

**Instructions**

how/when to sharpen, oil, wash, store, etc.

**Diamond File**

long-lasting and suitable for hardened steel

**Oil**

reduce friction and protect blades against corrosion

**Sharpening:** With time, blades become blunt and begin to lose their cutting capacity. When cutting marks are no longer tidy and strands and bark start getting stuck to the blade, it is time to sharpen the tool. Working with sharp tools benefit both the gardener and the garden: sharp tools demand less effort from the user and clean cuts promote faster healing of the plants. The easiest way to sharpen the blade is using a diamond file.

**Oiling:** Blades, joints and springs should be oiled on a regular basis with just a few drops of oil.

**Springs:** If the tool has springs, the blades should be securely locked before storage to maintain the spring tension.

# SCISSORS

Fiskars orange handled scissors are design classics that have been popular for more than four decades. Our selection of garden scissors are excellent for precise cutting and trimming tasks. The carbon steel blades easily cut through materials from fine wire to flower stems.

# PowerGear™ Steel

## PowerGear™ Steel Lopper Anvil (L) L99

Article No 112480

### Product benefits

- < Aluminium handles maximise the power used between the blades
- < Patented PowerGear™ mechanism makes the cutting 3,5 times easier compared to standard mechanisms
- < Steel gear maximises the supply of the power especially in the middle of the cut, when most help is needed
- < Upper blade made from high quality hardened carbon steel
- < Non stick PTFE coating on upper blade reduces friction and makes cutting and cleaning easier
- < Anvil blade made from cast aluminium enables easier cutting of hard, dry wood
- < Retail box: 4
- < Length: 800mm
- < Weight: 1220g

● Design Zentrum Nordrhein Westfalen Design-Innovation '99 Auszeichnung für Hohe Designqualität

# UNIVERSAL CUTTERS

Fiskars Universal Garden Cutters are multi-use tools that allow accessibility to tree crowns and dense bushes, enabling the gardener to trim overhead without needing a ladder or at ground level without bending or kneeling. Activate the great cutting power with a slide of the orange handle, or when used at maximum height, with a pull of the orange end knob. The adjustable head and the lightweight cutting mechanism helps to ensure fast, easy and safe pruning.

# PowerLever™

## PowerLever™ Hedge Shear HS2

Article No 114750

### Product benefits

- < Handles made from FiberComp™ to make them extremely lightweight and strong
- < PowerLever™ mechanism makes cutting 2,5 times easier compared to the standard mechanism
- < Robust lever mechanism ensures tool's longevity and trouble free usage
- < Blades made from extra hard, corrosion resistant steel (CrMoV) ensure that they stay sharper for longer
- < Retail box: 4
- < Length: 544mm
- < Weight: 630g

# SingleStep™

## SingleStep™ Hedge Shear Wavy Blade HS22

Article No 114730

### Product benefits

- < Comfortable and sturdy handles of glass fiber reinforced polypropylene (PPGF)
- < Wavy profiled hardened steel blades with friction reducing coating
- < Retail box: 4
- < Length: 580mm
- < Weight: 840g

# REEL MOWER

The Fiskars Staysharp Max reel mower promote greener, healthier lawns by cutting each blade of grass cleanly with a scissor like action. This minimises moisture loss and exposure to disease. The Reel Mower lets you cut grass without noise, uncomfortable vibrations and the hazards associated with power driven rotary blades. It is also the most environmentally friendly way to cut your lawn.

# StaySharp™

## StaySharp™ Max Reel Mower

Article No 113880

### Product benefits

- < Best in class cutting performance for a superior mowing experience
- < StaySharp™ cutting system cuts the grass without the blades touching so the mower is easier to push
- < Hardened steel blades with precision grounded edges
- < Ergonomic, height-adjustable handle with padded grip
- < VersaCut™ cutting capacity settings from 2,5 cm to 10 cm
- < Enables the closest side edging of any reel mower
- < Retail box: 1
- < Length: 1220mm
- < Weight: 2350g

# StaySharp™ Plus Parts

## StaySharp™ Grass Catcher

Article No 113883

### Product benefits

- < For use with Fiskars StaySharp™ Max Mower.
- < Simple to use with convenient handle for easy emptying
- < Effective capacity of approx 18 litres
- < UV and mildew resistant polyester screen and heavy duty steel frame for long lasting performance
- < Simple tool-free assembly to mower
- < Retail box: 1
- < Length: 540mm
- < Weight: 1400g

# GRASS SHEARS

Fiskars Grass Shears are ergonomically designed with unique user-friendly features. The ingenious Servo-System™ technology prevents the blades from jamming. The blades are made from hardened stainless steel for long lasting use and the FiberComp™ handles make them lightweight and easy to use.

# PowerLever™

**PowerLever™ Grass And Hedge Shear GS53**

Article No 113710

Product benefits

- < For cutting grass, hedges and small bushes
- < Handles made from FiberComp™ (a fiberglass reinforced polyamide) to make them extremely lightweight and strong
- < Efficient PowerLever™ mechanism optimises the power output
- < Cuts up to 10mm at the base of the blade
- < Reaches up to 2.5m
- < Allows the gardener to work in an upright position to prevent muscle strain and backache
- < Cutting head adjusts up to 270°
- < Retail box: 4
- < Length: 899mm
- < Weight: 1376g

# WEED PULLERS

The Fiskars Weed Puller is a great invention for removing weeds such as dandelions. Its simple design removes the need for digging, bending or the use of chemicals. Its deep reaching claws grab the root from all directions and remove the weed cleanly, removing only a small amount of soil.

# RAKES

Fiskars produce a wide range of rakes for different purposes. Raking, levelling soil and preparing beds for sowing requires the right tool to give new plants the right start in the growing season. Fiskars exchangeable rake system is easy to transport and store and the durable plastic heads are rust free and easy to clean.

<b>QuikFit Universal Adapter</b>	Article No 130000	Product benefits
		<ul style="list-style-type: none"> <li>&lt; For connecting a variety of interchangeable heads produced by other manufacturers</li> <li>&lt; Lightweight FiberComp™ construction</li> <li>&lt; Retail box: 6</li> <li>&lt; Length: 171mm</li> <li>&lt; Weight: 71g</li> </ul> 

reddot design award  
winner 2010

Fiskars QuikFit™ Locking system - winner of the Red Dot Award: Product Design 2010. The QuikFit™ mechanism ensures effortless change of heads for rakes, cultivators, hoes, weeders, saws etc. The heads attach to the shaft and the device is immediately ready for your use.

# CHILDREN'S TOOLS

Being together with your children in the garden, whether for play or working together to raise plants, rake leaves or to make a clean sweep is a simple pleasure that benefits the whole family. At Fiskars we have developed tools that offer both avenues for exploration, whether a box set of unique tools for the youngest to participate, all the way through to fully functioning stick tools for older children keen to help out with real garden work.

## Children's Tools

<b>My First Fiskars® Display</b>	Article No 138210	Product benefits
Compact display solution - instantly ready for sales. No assembly work or filling of tools required. Effective size of a half EUR-pallet e.g. 600mmx800mm. Display delivered with product brochures and try out samples for small garden tools.		Content: <10 x Rakes, 10 x Shovels, 10 x Spades, 10 x Brooms, 8 x Box sets with small garden tools

# EDUCATION

## CHOPPING VS. SPLITTING

**Chopping axe** – The Universal Chopping Axe’s thin, wide edge ensures a clean, easy cut in fresh, resinous wood, like spruce or pine.

**Splitting axe** – The Splitting Axe features a unique cutting edge that easily slices into the wood, which the thick axe blade then pushes apart.

## WHICH TOOL FOR WHICH TASK

By selecting the right tool for the job you save energy and ensure the wellbeing of your plants.

## ANVIL VS. BYPASS

**Bypass:** Both blade and counter blade press into the wood to make a clean cut with less compression damage (cutting blade bypasses counter blade in a scissors-like action). Possible to cut close to the stem. Best suitable for fresh wood.

**Anvil:** Upper blade is forced through the wood with greater pressure as the anvil blade supports the branch and spreads the pressure until the cut is complete. Best suitable for dry or dead wood.

Universal cutters help you reach difficult spots.

Loppers are particularly suited for cutting thicker branches.

The saw is particularly suited for removing thick (over Ø 5 cm) branches.

An axe is good for cutting the thickest branches and splitting firewood.

# PACKAGING

## Product Names

Fiskars products are named using letters and numbers. The letter refers to the product and the number represents which of our Supreme, Dynamic and Essential range it belongs to.

### Letter

- P – Pruner
- L – Lopper
- W – Weeder
- S – Scissors

### Number

- Essential: 01 - 39
- Dynamic: 40 - 99
- Supreme: 100+

P26

## Supreme Dynamic Essential

All Fiskars products are ranked as either Supreme, Dynamic or Essential. This is represented on our packaging numerically and through colour coding in the top right hand corner.

Supreme      Dynamic      Essential

## Relevant Package Images

The package visual illustrates the context of the product's usage to help you select your new tool.

## Product Technology

This is where we list our award winning technology. Fiskars garden tools have long been recognised for their superior quality, design and innovation.

PowerGear™

PowerStep™

PowerReel™

## Pictograms

Product benefits and features are visually described using icons.

### The icons fall into 3 categories:

1. Usage – what the product should be used for
2. Material – what the product is made of
3. Features – what defining features the product has

#### **Made in Finland**

Founded in the small village of Fiskars, Finland in 1649, the company has grown into a large multinational corporation, celebrated for a history of products accommodating the strict Finnish standards for quality and design. Following its tradition to drive innovation of tools that reduce the effort, fatigue and strains so often associated with gardening, Fiskars ergonomic, high performance cutting and landscaping tools are designed to do the hard work, so you don't have to!
